

14 - 15 September 2020

75th Jubilee Swiss LCA Forum in Zürich, Switzerland

Life Cycle Thinking = Lower Footprint?

LCA should help us tackle the huge global environmental challenges. But does it really? Which major decisions were (partly) based on LCA? And what can we learn from these? At the 75th LCA Discussion Forum, we discuss such experience and insights. You are cordially invited – as presenter and/or participant, from industry, science, NGO, and any other interested background – to the 75th DF LCA, where we discuss:

- **How much does LCA *really* help in reducing pressure on the environment?**
- **Which *important decisions* were based on LC thinking and analysis?**
- **How can LCA become more effective for *big & relevant* issues?**

Call for Abstracts: until 10 January 2020
get the abstract submission form: www.lcaforum.ch
submission to be sent to: lcaforum@ethz.ch
